

East Palo Alto Revitalization Plan

East Palo Alto, California

REVITALIZATION PLANNING + COMMUNITY VISIONING

During the height of development pressure in Silicon Valley, the citizens of East Palo Alto created the *Revitalization Specific Plan* to establish strategies for growth, and to instigate the development of significant opportunity sites throughout the City. With significant input from community workshops and stakeholder meetings, members of City Design Collective produced masterplans, streetscape designs, land use and revitalization strategies, and implementation strategies to attract and guide new investment throughout the plan area.

PROJECT FEATURES

- Attract significant new investment to the district; coordinate public and private investment to catalyze revitalization efforts and sustain necessary momentum.
- Prepare economic and urban design revitalization strategies.
- Establish the framework for future City districts including the 'Town Center', 'Ravenswood Business District', and 'University Corridor'.
- Promote the development of under-utilized lands throughout the Plan Area.
