

Downtown Open Space Plan

Morgan Hill, California

OPEN SPACE PLANNING + COMMUNITY VISIONING

As a key component to an overall Downtown Revitalization Plan, Morgan Hill residents participated in a series of public meetings, interactive workshops, and walking tours of opportunity sites with the explicit goal of envisioning future public parks and open spaces in the downtown district. The community engaged in workshops to discuss the trade-offs associated with planning open spaces in developed areas. Long term goals aim to attract residents and visitors of all ages and abilities while supporting local businesses throughout the downtown core.

PROJECT FEATURES

- Community visioning, including workshops, meetings, and walking tours of possible project sites highlighting natural features and the relationship to surrounding streets and properties.
- Preparation of conceptual design plans illustrating potential public open spaces in accordance with the community's vision.
- Recommend design and planning of attractive outdoor spaces for downtown residents as part of new residential and mixed-use development within Downtown.
